Dear Liz,

“I have never seen such an amazing wedding – not even in a movie!”

“The attention to detail here is awe-inspiring, everything from signature cocktails and flip flops to train transport and bonfires!”

“This wedding is sooo Megan. It is everything that Megan and Mike have ever dreamt of.”

These are just a handful of the compliments that I received for all of your hard work! From the moment the engagement was announced, Megan and Mike and Ken and I have had fun with the wedding planning. All of that fun was due to your efforts. It is impossible to even begin to enumerate the multiple tasks you undertook to make Megan and Mike’s wedding perfection itself. I am going to give it a try though, let’s see...hunting down the perfect stamps for the invitations, getting all the calligraphy done, sending the invitations, arranging the license, placing the newspaper bans, finding the Church, the Club, the Bands, the Photographer, the Chef, the Florist, the train, the taxis the Priest, the Carriages, the Cake – and all of them the best of the best. Imagine that and not only imagine that, but imagine that you brought out the best in the Best!

After writing the exhaustive list above, I realize I forgot things like picking up and organizing the flip flops, the napkins, the chalkboard, the album...the list goes on and on and of course, Robbie, who was there whenever we needed him, at the Church, with the train, with Ken’s 88 year old parents, with our last guests.

Liz, thanks to you and Robbie we were lucky enough to have been able to give our daughter the wedding of her dreams and have a son-in-law who thinks that planning and executing a wedding is fun! Bless you both. By the way, did I mention that you did all this with only about four months notice?

Love & thanks,
Anne and Ken
